

The minutes of the meeting held on Sunday 11/13/05

President Brian called the meeting to order at the appointed time. Those present were: Dave Dress, Brian Reed, Roger Smith, Hank Tanzer, Jim Alexander, John Balparada, Bob Case, Lori Walters, Dick Robinson, Rich Schisler, Tom Puma, Tom Purner, Bob Scott, Billy Keyes, and Doug Not a Member Yet and don't know last name.

President Brian started the meeting with the ever present discussion of what the status of the Fair Haven project was....which, at the moment no one seems to really know for certain. In an attempt to correct this, and to ensure we are heard at contract time, the club voted Tom Puma to be our representative on the airport committee. Yea Tom!

There was then a very short discussion over how much to pay or intrepid mower men. For all the hard work they put in it was generally agreed that we couldn't pay them what the job was worth so they would have to settle for \$250 and our heartfelt thanks. There was discussion about the next generation of a lawn mower when Rogers' went to the great lawn in the sky.....this subject seemed to die in committee.

There was a report given that the Rutland Field House was offering their air space to us for electric planes and it was agreed that an email would be sent to the membership to determine interest.....at least it can't rain in there.

Dave tried to get elections out of the way early but the membership was having no part of it so we will elect (railroad) officers at February's meeting tentatively scheduled sometime around Valentines Day.

It was decided that we would hold an air show for the public in 2006 and the success of the garage sale would attempt to be duplicated in the spring at Dave's place....at which time the Roy Oughtbe boots and Peggy Flameing ice skates would once again be up for sale.

The really important stuff was discussed next, Dues. Much discussion ensued over this subject mostly to determine the need and the amount. After some comparisons and compromises it was agreed that next years dues would be \$40.

After all this high finance it was time to kick back, eat pizza, drink beer and watch guys who really do know how to fly!
